

NISHCHINTHA Launches Residential Respite Care Service for Children with Special Needs

NISHCHINTHA, successfully launched the trial run of its new Residential Respite Care Service on 26th May 2025. Three children participated on the first day, with initial feedback indicating a positive experience for all.

The residential respite care service is designed to offer a safe, supportive and engaging environment for children with special needs, while giving their parents a much-needed break. Feedback from the initial group of three children indicates they enjoyed their stay away from home, suggesting the initiative successfully has fostered a positive and stimulating experience.

NISHCHINTHA's initiative meets a vital need within its community by offering specialized care that engages special needs children in enriching activities while providing families with essential short-term relief. The positive response on the first day signals a promising future for this valuable service.
